If you want a conformation please supply your e-mail address: (please print clear)

E-Mail Address: \_\_\_\_\_

The chickens purchased from the Small Animal Department are pullorum free and these chickens do not need to be re-tested or brought back to tag-in. The Small Animal Department already has these papers on file. If you have other chickens at home that have not been tested for pullorum within the last year, you will need to have them tested. Please call for information about the testing.
